Consulting in feasability, web development, databases

## coaching  Besides work, I love to help others to learn how to program

since 2012  **RailsGirls Berlin**                                    multiple times a year
Ruby on Rails for beginners

since 2013  **JugendHackt**                                          once a year
helping with different topics around hard- and software hacking
for teenagers from 12-18

May 2014  **HistoryCampus Berlin**                                   once
helped with technical topics around webdevelopment

# **edu**cation  my educational experience

| | | |
